

# The Safest and Easiest Way to Open, Tip and Close Your Molds

## Hydraulics and Magnets

Hydraulics and Magnets Open, Tip and Close Molds effortlessly using our patented process.

No More pry bars, sledge hammers, brass bars, manual clamps or any of the other labor intensive methods of opening and closing molds. Tipping is safe fast and easy!

### Safe

- Eliminates much of the work that causes accidents, as well as long term cumulative injuries.

### Fast

- Place mold in large, open bay.
- Close platen, engage magnets
- Pull control lever to open mold instantly
- Another hydraulic lever tips mold horizontally in seconds.
